Journal of Graph Theory

Contents of Volume 26, 1997

Number 1, September 1997

Rank and Chromatic Number of a Graph
A. Kotlov 1

Lambda Composition
K. Cameron and J. Edmonds 9

Nonbipartite Graphs with the Repeated Degree Property
L. Šoltés 17

Degree Sequence Conditions for Maximally Edge-Connected Graphs and Digraphs
P. Dankelmann and L. Volkmann 27

P_3-Isomorphisms for Graphs
R. E. L. Aldred, M. N. Ellingham, R. L. Hemminger, and P. Jipsen 35

Total Colorings of Planar Graphs with Large Maximum Degree
O. V. Borodin, A. V. Kostochka, and D. R. Woodall 53

Information for Contributors I

Number 2, October 1997

Lower Bounds on Size and Independence in K_4-free Graphs
K. L. Fraughnaugh and S. C. Locke 61

Vertex-Distinguishing Proper Edge-Colorings
A. C. Burris and R. H. Schelp 73

Triangles in 2-Factorizations
I. J. Dejter, F. Franek, E. Mendelsohn, and A. Rosa 83

Packing Two Bipartite Graphs into a Complete Bipartite Graph
H. Wang 95

Covering a Graph with Cycles Passing Through Given Edges
H. Wang 105

Signed Degree Sequences of Signed Graphs
J.-H. Yan, K.-W. Lih, D. Kuo, and G. J. Chang 111

Information for Contributors I

Number 3, November 1997

Upper Bounds for Ramsey Numbers $R(3,3,\ldots,3)$ and Schur Numbers
H. Wan 119

Building Fences Around the Chromatic Coefficients
D. M. Strickland 123

Some Results on the Achromatic Number
N. Cairnie and K. Edwards 129

Multichromatic Numbers, Star Chromatic Numbers and Kneser Graphs
A. Johnson, F. C. Holroyd, and S. Stahl 137

On the Structure of Extremal Graphs of High Girth
F. Lazebnik and P. Wang 147

A Graph-Theoretic Version of the Union-Closed Sets Conjecture
M. H. El-Zahar 155

On the Girth of Hamiltonian Weakly Pancyclic Graphs
B. Bollobás and A. Thomason 165

Information for Contributors I

Number 4, December 1997

End-Faithful Spanning Trees in T_{81}-Free Graphs
N. Polat 175

Coloring Graphs Which Have Equibipartite Complements
A. J. W. Hilton and C. Zhao 183

Bandwidth Edge Counts for Linear Arrangements of Rectangular Grids
P. Fishburn and P. Wright 195

Graphs Omitting a Bushy Tree
G. Cherlin, N. Shi, and L. Tallgren **203**

The Graph Constructions of Hajós and Ore
A. Urquhart **211**

Author Index **219**

Volume Contents **I**

Information for Contributors **V**
